Subject: Draft outline for residential sampling study

Walt, I hope our discussion today was helpful to you and your colleagues in developing a potential drinking water sampling study. Here is a draft that I hope summarizes where we ended our discussion today, in the way of suggesting what a framework might be for conducting such a study. Others on the call should feel free to correct/augment this.

This is very challenging, we know. We will be happy to continue to provide assistance, where we can.

I do not have email addresses for the participants from the WV National Guard or for Dr. Hattie, so I hope you can forward this to them.

Victoria P. Binetti
